

ABRAKADOODLE ART CLASSES

Abrakadoodle art education believes in hands-on, active discovery and exploration in our art classes for kids. This encourages a love of art, learning and innovation! Abrakadoodle embraces “process art”, which simply means that kids learn best as they explore art materials and the creative process of taking ideas from within and bringing them to life! Students will experiment with color, form, line, shape, texture, and value while making use of creative art materials such as bamboo brushes, molding compounds, oil pastels and many others. We can not wait to see you soon!
